

DR. B. PITTALUGA & C. s.r.l

STATIC MIXER VP for turbulent and transitional flow

Exceptional mixing power with minimal pressure drop

Features:

- No moving parts
- Maintenance is not necessary
- Minimal space request
- Excellent mixing efficiency even with high flow variations

Typical applications:

- pH control
- Addition of flocculant or polyelectrolyte to water
- Remineralisation of desalinated water
- Dispersion of non miscible liquids
- Mixing of miscible liquids
- Mixing of additives in petrol and fuel oils

Materials and executions:

- Shell and interiors in AISI 316 L or others metal alloys
- Executed with fixed or removable components
- Flanged connections as per DIN, ANSI, Tri-Clamp, SMS
- Complies with ATEX and PED directive
